

Mr David Chown  
Tralka Pty Ltd  
PO Box 280  
SERPENTINE WA 6125

Dear Mr Chown

**ENVIRONMENTAL PROTECTION ACT 1986 – AMENDMENT TO LICENCE**

**Licence:** L6373/1989/10  
**Premises:** Tralka Pty Ltd,  
Lot 366 on Plan 202654 (567), Utley Road  
HOPELAND WA 6125

Further to my letter dated 19 September 2013, please find enclosed your amended *Environmental Protection Act 1986* licence.

If you have any questions or objections relating to the licence, please do not hesitate to contact the enquiries officer above on 9333 7485 for clarification or discussion of any grievances you have.

If you are concerned about, or object to any aspect of the amendment, you may lodge an appeal with the Minister for the Environment within 21 days from the date on which this licence is received. The Office of the Appeals Convenor can be contacted on 6467 5190 to find out the procedure and fee.

Members of the public may also appeal the amendments. The Appeals Registrar at the Office of the Appeals Convenor can be contacted after the closing date of appeals to check whether any appeals were received.

Yours sincerely

Peter Skitmore  
Officer delegated under Section 20  
of the *Environmental Protection Act 1986*

10 October 2013

enc: amended licence L6373/1989/10  
copy to: Shire of Serpentine- Jarrahdale

# Licence

## *Environmental Protection Act 1986, Part V*

---

**Licensee:** Tralka Pty Ltd  
**Licence:** L6373/1989/10

---

**Registered office:** Level 1  
10 Kings Park Road  
WEST PERTH WA 6005

**ACN:** 009 127 253

**Premises address:** Tralka Pty Ltd  
567 Utley Road  
HOPELAND WA 6125  
Being Lot 366 on Plan 202654 as depicted in Schedule 1.

**Issue date:** Thursday, 01 August 2013

**Commencement date:** Wednesday, 07 August 2013

**Expiry date:** Monday, 06 August 2018

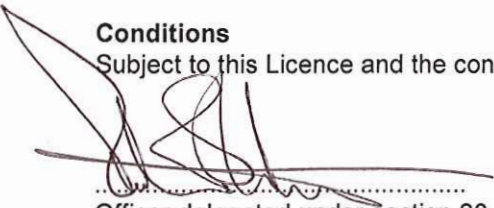

**Prescribed premises category**

Schedule 1 of the Environmental Protection Regulations 1987

Category number	Category description	Category production or design capacity	Approved premises production or design capacity
2	Intensive Piggery: premises on which pigs are fed, watered and housed in pens.	1 000 animals or more	8,8000 animals per annual period

**Conditions**

Subject to this Licence and the conditions set out in the attached pages.

.....  
Officer delegated under section 20  
of the *Environmental Protection Act 1986*

## Introduction

This Introduction is not part of the Licence conditions.

### DER's industry licensing role

The Department of Environment Regulation (DER) is a Government Department for the State of Western Australia in the portfolio of the Minister for Environment. DER's purpose is to protect and conserve the State's environment on behalf of the people of Western Australia.

DER has responsibilities under Part V of the *Environmental Protection Act 1986* (the Act) for the licensing of prescribed premises. Through this process DER works with the business owners, community, consultants, industry and other representatives to prevent, control and abate pollution and environmental harm to conserve and protect the environment. DER also monitor and audit compliance with works approvals and licence conditions, take enforcement action as appropriate and develop and implement licensing and industry regulation policy.

### Licence requirements

This licence is issued under Part V of the Act. Conditions contained with the licence relate to the prevention, reduction or control of emissions and discharges to the environment and to the monitoring and reporting of them.

Where other statutory instruments impose obligations on the Premises/Licensee the intention is not to replicate them in the licence conditions. You should therefore ensure that you are aware of all your statutory obligations under the Act and any other statutory instrument. Legislation can be accessed through the State Law Publisher website using the following link:

<http://www.slp.wa.gov.au/legislation/statutes.nsf/default.html>

For your Premises relevant statutory instruments include but are not limited to obligations under the:

- Environmental Protection (Unauthorised Discharges) Regulations 2004 – these Regulations make it an offence to discharge certain materials such as contaminated stormwater into the environment other than in the circumstances set out in the Regulations.
- Environmental Protection (Controlled Waste) Regulations 2004 - these Regulations place obligations on you if you produce, accept, transport or dispose of controlled waste.

- Environmental Protection (Noise) Regulations 1997 – these Regulations require noise emissions from the Premises to comply with the assigned noise levels set out in the Regulations.

You must comply with your licence. Non-compliance with your licence is an offence and strict penalties exist for those who do not comply.

Licence holders are also reminded of the requirements of section 53 of the Act which places restrictions on making certain changes to prescribed premises unless the changes are in accordance with a works approval, licence, closure notice or environmental protection notice.

#### **Licence fees**

If you have a licence that is issued for more than one year, you are required to pay an annual licence fee prior to the anniversary date of issue of your licence. Non payment of annual licence fees will result in your licence ceasing to have effect meaning that it will no longer be valid and you will need to apply for a new licence for your Premises. Operating without a licence is an offence under the Act.

#### **Ministerial conditions**

If your Premises has been assessed under Part IV of the Act you may have had conditions imposed by the Minister for the Environment. You are required to comply with any conditions imposed by the Minister.

#### **Premises description and Licence summary**

Tralka Pty Ltd is an intensive piggery that has the capacity to house 8,000 animals in conventional sheds.

The Environmental Protection Authority Guidance Statement No. 3 (June 2005) recommends a separation distance of 5,000 metres (m) between piggeries with more than 5,000 pigs and sensitive land uses. The Premises is located in an area zoned rural surrounded in all directions within 5,000 m by other small rural land holdings.

The premises is located within the *Environmental Protection (Peel Inlet-Harvey Estuary) Policy 1992* area. The Peel Inlet – Harvey Estuary Catchment is under pressure from nutrient inputs and eutrophication. The Serpentine River is 5.1km away at its closest point to the premises boundary.

Odour, waste products and the protection of ground waters are the significant environmental factors for the piggery.

All the piggery wastewater is treated in two anaerobic ponds and one facultative pond. Treated effluent is contained in two evaporation ponds. No treated waste water is re-used on site. All the ponds are clay-lined. Solids are screened from waste water and stored on a bunded, low permeability ( $10^{-9}$  m/second or less) surface with drains that direct all runoff to the wastewater treatment pond system. Screened solids and solids removed from the ponds are disposed of at an authorized landfill.

Pig carcasses are either buried on site in burial pits or disposed of off-site at a licensed rendering plant.

Stormwater is diverted away from the burial pits.

Other than pig carcass burial, there is no onsite disposal of piggery solids or piggery sludges by land application or burial.

Three monitoring bores provide access to groundwater for sampling twice per year.

This Licence is the successor to licence L6373/1989/9 and includes changes to conditions relating to converting the licence to the standard REFIRE format and wording current at the time.

The licences issued for the Premises since 10/10/2000 are:

<b>Instrument log</b>		
<b>Instrument</b>	<b>Issued</b>	<b>Description</b>
L6373/1989/3	10/10/2000	Licence re-issue
L6373/1989/4	01/10/2001	Licence re-issue
L6373/1989/5	01/10/2002	Licence re-issue
L6373/1989/6	06/10/2003	Licence re-issue
L6373/1989/7	06/09/2004	Licence re-issue
L6373/1989/8	06/09/2005	Licence re-issue
L6373/1989/9	01/08/2008	Licence re-issue
L6373/1989/10	10/08/2013	Licence amendment , including to REFIRE format

#### **Severance**

It is the intent of these Licence conditions that they shall operate so that, if a condition or a part of a condition is beyond the power of this Licence to impose, or is otherwise *ultra vires* or invalid, that condition or part of a condition shall be severed and the remainder of these conditions shall nevertheless be valid to the extent that they are within the power of this Licence to impose and are not otherwise *ultra vires* or invalid.

**END OF INTRODUCTION**

## Licence conditions

### 1 General

#### 1.1 Interpretation

1.1.1 In the Licence, definitions from the *Environmental Protection Act 1986* apply unless the contrary intention appears.

1.1.2 For the purposes of this Licence, unless the contrary intention appears:

“**the Act**” means the *Environmental Protection Act 1986*;

“**AHD**” means the Australian height datum;

“**annual period**” means the inclusive period from 1 July to 30 June in the following year;

“**AS/NZS 5667.1**” means the Australian Standard AS/NZS 5667.1 *Water Quality – Sampling – Guidance of the Design of sampling programs, sampling techniques and the preservation and handling of samples*;

“**AS/NZS 5667.11**” means the Australian Standard AS/NZS 5667.11 *Water Quality – Sampling – Guidance on sampling of groundwaters*;

“**BGL**” means below ground level;

“**carcasses**” means the dead bodies of animals (pigs);

“**Code of Practice for the Storage and handling of dangerous goods**” means the Storage and handling of dangerous goods, Code of Practice, Department of Mines and Petroleum, Government of Western Australia;

“**dangerous goods**” has the meaning defined in the Dangerous Goods Safety (Storage and Handling of Non-explosives) Regulations 2007;

“**Director**” means Director, Environmental Regulation Division of the Department of Environment Regulation for and on behalf of the Chief Executive Officer as delegated under Section 20 of the *Environmental Protection Act 1986*;

“**Director**” for the purpose of correspondence means;

Regional Leader, Industry Regulation, Swan Region  
Department of Environment Regulation  
Locked Bag 33  
CLOISTERS SQUARE PERTH WA 6850  
Telephone: (08) 9333 7510  
Facsimile: (08) 9333 7550

“**environmentally hazardous material**” means material (either solid or liquid raw materials, materials in the process of manufacture, manufactured products, products used in the manufacturing process, by-products and waste) which if discharged into the environment from or within the premises may cause pollution or environmental harm. Note: Environmentally hazardous materials include dangerous goods where they are stored in quantities below placard quantities. The storage of dangerous goods above placard quantities is regulated by the Department of Mines and Petroleum;

“**freeboard**” means the distance between the maximum water surface elevations and the top of retaining banks or structures. Freeboard is provided to prevent overtopping due to unforeseen conditions, and/or events greater than the maximum design event of the structure;

“**fugitive emissions**” means all emissions not arising from point sources.

“**Licence**” means this Licence numbered L6373/1989/10 and issued under the *Environmental Protection Act 1986*;

“**Licensee**” means the person or organisation named as Licensee on page 1 of the Licence;

“**NATA**” means the National Association of Testing Authorities, Australia;

“**NATA accredited**” means in relation to the analysis of a sample that the laboratory is NATA accredited for the specified analysis at the time of the analysis;

“**Premises**” means the area defined in the Premises Map in Schedule 1 and listed as the Premises address on page 1 of the Licence;

“**Schedule 1**” means Schedule 1 of this Licence unless otherwise stated;

“**Schedule 2**” means Schedule 2 of this Licence unless otherwise stated;

“**screened solids**” means solid piggery waste, excluding animal carcasses.

“**six monthly period**” means the 2 inclusive periods from 1 April to 30 September and 1 October to 31 March in the following year; and

“**spot sample**” means a discrete sample representative at the time and place at which the sample is taken;

“**usual working day**” means 0800 – 1700 hours, Monday to Friday excluding public holidays in Western Australia;

“**Water Quality Protection Note 30 Ground Water Monitoring Bores**” means the Water Quality Protection Note 30, February 2006, Department of Water, Government of Western Australia.

1.1.3 Any reference to an Australian or other standard in the Licence means the relevant parts of the current version of that standard.

1.1.4 Any reference to a Guideline or Code of Practice in the Licence means the current version of the Guideline or Code of Practice.

## 1.2 General conditions

1.2.1 Nothing in the Licence shall be taken to authorise any emission that is not mentioned in the Licence, where the emission amounts to:

- (a) pollution;
- (b) unreasonable emission;
- (c) discharge of waste in circumstances likely to cause pollution; or
- (d) being contrary to any written law.

- 1.2.2 The Licensee shall operate and maintain all pollution control and monitoring equipment to the manufacturer's specification or any relevant and effective internal management system.
- 1.2.3 The Licensee, except where storage is prescribed in section 1.3, shall ensure that environmentally hazardous materials are stored in accordance with the Code of Practice for the Storage and handling of dangerous goods.
- 1.2.4 The Licensee shall immediately recover, or remove and dispose of spills of environmentally hazardous materials outside an engineered containment system.
- 1.2.5 The Licensee shall:
  - (a) implement all practical measures to prevent stormwater run-off becoming contaminated by the activities on the Premises; and
  - (b) treat contaminated or potentially contaminated stormwater as necessary prior to being discharged from the Premises.

Note1: The Environmental Protection (Unauthorised Discharges) Regulations 2004 make it an offence to discharge certain materials into the environment.

**1.3 Premises operation**

- 1.3.1 The Licensee shall ensure that all wastewaters from piggery operations including wash down water, by-products wastewater and contaminated run-off are directed to a wastewater treatment system.
- 1.3.2 The Licensee shall maintain an effective wastewater treatment system that shall include:
  - (a) a solids separation system; and
  - (b) an impervious pond system for treatment of wastewater to reduce nitrogen and biological oxygen demand levels.
- 1.3.3 The Licensee shall ensure that wastewater is only stored and/or treated within vessels or compounds provided with the infrastructure detailed in Table 1.3.3.

<b>Table 1.3.3: Containment infrastructure</b>		
<b>Storage vessel or compound</b>	<b>Material</b>	<b>Infrastructure requirements</b>
Solids separator	Wastewater	Concrete lined
Anaerobic ponds (two)	Wastewater	Clay-lined ponds
Facultative pond (one)	Wastewater	
Evaporation ponds (two)	Wastewater	
Solids storage	Screened solids and solids removed from ponds	Lined to achieve a permeability of at least $<10^{-9}$ m/s or equivalent. Bunded with drains such that all runoff is directed to the wastewater treatment pond system.

- 1.3.4 The Licensee shall manage the wastewater treatment ponds such that:
  - (a) a minimum top of embankment freeboard of 500mm is maintained;
  - (b) storm water runoff is prevented from causing the erosion of outer pond embankments;
  - (c) overtopping of the wastewater treatment ponds does not occur except as a result of an extreme rainfall event (greater than 1 in 10 year event of 72 hours duration);
  - (d) vegetation and floating debris (emergent or otherwise) is prevented from encroaching onto pond surfaces or inner pond embankments;

- (e) trapped overflows shall be maintained between treatment ponds to prevent carry-over of surface floating matter to subsequent ponds; and
- (f) no overflow leaves the Premises.

1.3.5 The Licensee shall ensure that where wastes produced on the Premises are not taken off-site for lawful use or disposal, they are only subject to the on-site process(es) described in Table 1.3.4 and in accordance with the process requirements in that Table.

<b>Table 1.3.5: Processing of materials</b>		
<b>Waste type</b>	<b>Process</b>	<b>Process requirements</b>
Treated wastewater	Evaporation	None
Piggery carcasses	On-site burial	<ul style="list-style-type: none"><li>(a) carcasses and waste material are covered with at least 500mm of soil immediately upon deposit;</li><li>(b) burial sites are 300m away from watercourses and 50m away from nearest properties;</li><li>(c) the number of animal carcasses buried is recorded for the duration of the licence; and</li><li>(d) all carcasses are buried daily.</li></ul>

## **2 Emissions**

### **2.1 General**

2.1.1 The Licensee shall record and investigate the exceedance of any descriptive or numerical limit, and/or target in this section.

### **2.2-2.4 Point source emissions to air, surface water and groundwater**

There are no specified conditions relating to point source emissions to air, surface water or groundwater in this section.

### **2.5 Emissions to land**

There are no specified conditions relating to emissions to land in this section.

### **2.6 Fugitive emissions**

There are no specified conditions relating to fugitive emissions in this section.

### **2.7 Odour**

2.7.1 The Licensee shall ensure that odour emitted from the Premises does not unreasonably interfere with the health, welfare, convenience, comfort or amenity of any person who is not on the Premises.

### **2.8 Noise**

There are no specified conditions relating to noise in this section.

### 3 Monitoring

#### 3.1 General monitoring

3.1.1 The licensee shall ensure that:

- (a) all water samples are collected and preserved in accordance with AS/NZS 5667.1;
- (b) all groundwater sampling is conducted in accordance with AS/NZS 5667.11 and
- (c) all samples are submitted to a laboratory with current NATA accreditation for the parameters to be measured [unless indicated otherwise in relevant table].

3.1.2 The Licensee shall ensure that six monthly monitoring is undertaken at least 5 months apart.

#### 3.2-3.4 Monitoring of point source emissions to air, surface water and groundwater

There are no specified conditions relating to monitoring of point source emissions to air, surface water or groundwater in this section.

#### 3.5 Monitoring of emissions to land

There are no specified conditions relating to monitoring of emissions to land in this section.

#### 3.6 Monitoring of inputs and outputs

There are no specified conditions relating to monitoring of inputs and outputs in this section.

#### 3.7 Process monitoring

There are no specified conditions relating to process monitoring in this section.

#### 3.8 Ambient environmental quality monitoring

3.8.1 The Licensee shall undertake the monitoring in Table 3.8.1 according to the specifications in that table and record and investigate results that do not meet any target specified.

Table 3.8 .1: Monitoring of ambient groundwater quality				
Monitoring point reference and location	Parameter	Units	Averaging period	Frequency
Groundwater monitoring bores 1, 2 and 3	pH	-	Spot sample	Six monthly period
	Total Dissolved Solids(TDS)	mg/L		
	Total Nitrogen (TN)	mg/L		
	Total Phosphorus (TP)	mg/L		
	Standing Water Level (SWL)	m(AHD) and m(BGL)		

#### 3.9 Meteorological monitoring

There are no specified conditions relating to meteorological monitoring in this section.

## 4 Improvements

### 4.1 Improvement program

4.1.1 The Licensee shall complete the improvements in Table 4.1.1 by the date specified.

4.1.2 The Licensee, for improvements not specifically requiring a written submission, shall write to the Director stating whether and how the Licensee is compliant with the improvement within one week of the completion date specified in Table 4.1.1.

<b>Improvement reference</b>	<b>Improvement</b>	<b>Date of completion</b>
IR1	The Licensee shall install a groundwater monitoring bore at the location marked "Groundwater Monitoring Bore 3" in Schedule 1 of this licence and in accordance with the Water Quality Protection Note 30 <i>Ground Water Monitoring Bores</i> .	Within 30 days of issue of this amendment date.
IR2	The licensee shall submit to the Director documentary evidence of compliance with IR1.	Within 10 days of compliance with IR1.

## 5 Information

### 5.1 Records

5.1.1 All information and records required by the Licence shall:

- (a) be legible;
- (b) if amended, be amended in such a way that the original and subsequent amendments remain legible or are capable of retrieval;
- (c) except for records listed in 5.1.1(d) be retained for at least 6 years from the date the records were made or until the expiry of the Licence or any subsequent licence; and
- (d) for those following records, be retained until the expiry of the Licence and any subsequent licence:
  - (i) off-site environmental effects; or
  - (ii) matters which affect the condition of the land or waters.

5.1.2 The Licensee shall ensure that:

- (a) any person left in charge of the Premises is aware of the conditions of the Licence and has access at all times to the Licence or copies thereof; and
- (b) any person who performs tasks on the Premises is informed of all of the conditions of the Licence that relate to the tasks which that person is performing.

5.1.3 The Licensee shall complete an Annual Audit Compliance Report indicating the extent to which the Licensee has complied with the conditions of the Licence, and any previous licence issued under Part V of the Act for the Premises for the previous annual period.

5.1.4 The Licensee shall implement a complaints management system that as a minimum records the number and details of complaints received concerning the environmental impact of the activities undertaken at the Premises and any action taken in response to the complaint.

**5.2 Reporting**

5.2.1 The Licensee shall submit to the Director an Annual Environmental Report within 28 calendar days after the end of the annual period. The report shall contain the information listed in Table 5.2.1 in the format or form specified in that table.

Condition or table (if relevant)	Parameter	Format or form <sup>1</sup>
-	Summary of any failure or malfunction of any pollution control equipment or any incidents that have occurred during the annual period and any action taken	None specified
5.1.3	Compliance	Annual Audit Compliance Report
5.1.4	Complaints summary	None specified
Table 3.8.1	pH, Total Dissolved Solids (TDS), Total Nitrogen (TN), Total Phosphorus (TP) and Standing Water Level (SWL)	None specified
-	Total number of animals	Tabular format: monthly maximum including annual total

Note 1: Forms are in Schedule 2

5.2.2 The Licensee shall ensure that the Annual Environmental Report also contains:

- (a) an assessment of the information contained within the report against previous monitoring results and Licence limits and/or targets; and
- (b) a list of any original monitoring reports submitted to the Licensee from third parties for the annual period and make these reports available on request.

**5.3 Notification**

5.3.1 The Licensee shall ensure that the parameters listed in Table 5.3.1 are notified to the Director in accordance with the notification requirements of the table.

Condition or table (if relevant)	Parameter	Notification requirement <sup>1</sup>	Format or form <sup>2</sup>
3.8.1	Any failure or malfunction of any monitoring equipment.	Within 7 days of the failure of malfunction being identified.	None Specified
-	Any failure or malfunction of any pollution control equipment or any incident which has caused, is causing or may cause pollution	Part A: As soon as practicable but no later than 5pm of the next usual working day.  Part B: As soon as practicable	N1

Note 1: Notification requirements in the licence shall not negate the requirement to comply with s72 of the Act

Note 2: Forms are in Schedule 2

## Schedule 1: Maps

Premises map

The Premises is shown in the map below. The pink line depicts the Premises boundary.

### Map of monitoring locations

The locations of the monitoring points defined in Table 3.8.1 are shown below.

### Map of monitoring locations

The locations of the monitoring points defined in Table 3.8.1 are shown in the close up map below.

## Schedule 2: Reporting & notification forms

These forms are provided for the proponent to report monitoring and other data required by the Licence. They can be requested in an electronic format.

Licence: L6373/1989/10 Licensee: Tralka Pty Ltd  
Form: AACR Period :  
Name: Annual Audit Compliance Report

### Annual Audit Compliance Report

#### Section A: Statement of compliance with Licence conditions

Were all conditions of licence complied with within the annual period?	
Yes	<input type="checkbox"/> Initial Sections A & B, then proceed to Section C
No	<input type="checkbox"/> Initial Section A, then proceed to Section B

Each page must be initialled by the person(s) who signs Section C of this Annual Audit Compliance Report (AACR).

Initial:

**Section B: Details of non-compliance with Licence condition**

a) Licence condition not complied with?	
b) Date(s) b) Date(s) and time(s) the non compliance occurred, if applicable?	
c) Was this non compliance reported to DER?	
<input type="checkbox"/> Yes, and <input type="checkbox"/> Reported to DER verbally    Date <input type="checkbox"/> Reported to DER in writing    Date	<input type="checkbox"/> No
d) Has DER taken, or finalised any action in relation to the non compliance?	
e) Summary of particulars of non compliance, and what was the environmental impact?	
f) If relevant, the precise location where the non compliance occurred (attach map or diagram)	
g) Cause of non compliance	
h) Action taken or that will be taken to mitigate any adverse effects of the non compliance	
i) Action taken or that will be taken to prevent recurrence of the non compliance	

Please use a separate page for each Licence condition that was not complied with. Each page must be initialled by the person(s) who signs Section C of this AACR

Initial:

**Section C: Signature and certification**

This AACR must only be signed by a person(s) with legal authority to sign it as defined below. Please tick the box next to the category that describes how this AACR is being signed. If you are uncertain about who is entitled to sign or which category to tick, please contact the licensing officer for your premises.

If the Licence holder is	The AACR must be signed and certified:
an individual	<input type="checkbox"/> by the individual Licence holder, or <input type="checkbox"/> by a person approved in writing by the Chief Executive Officer (CEO) of DER to sign on the Licensee's behalf.
a corporation	<input type="checkbox"/> by affixing the common seal of the Licensee in accordance with the Corporations Act 2001; or <input type="checkbox"/> by two directors of the Licensee; or <input type="checkbox"/> by a director and a company secretary of the Licensee, or <input type="checkbox"/> if the Licensee is a proprietary company that has a sole director who is also the sole company secretary – by that director, or <input type="checkbox"/> by the principal executive officer of the Licensee; or <input type="checkbox"/> by a person with authority to sign on the Licensee's behalf who is approved in writing by the CEO of DER.
A public authority (other than a local government)	<input type="checkbox"/> by the principal executive officer of the Licensee; or <input type="checkbox"/> by a person with authority to sign on the Licensee's behalf who is approved in writing by the CEO of DER.
a local government	<input type="checkbox"/> by the CEO of the Licensee; or <input type="checkbox"/> by affixing the seal of the local government.

It is an offence under section 112 of the *Environmental Protection Act 1986* for a person to give information on this form that to their knowledge is false or misleading in a material particular. There is a maximum penalty of \$50,000 for an individual or body corporate.

I/We declare that the information in this AACR is correct and not false or misleading in a material particular.
